*"Nutanix Support is the gold standard for any technology support that we use. They are head and shoulders above everyone else. We couldn't be more pleased with the support that we're getting."*

- Paul Farrell, Senior Manager of IT Infrastructure, Black Hills Energy

*"I've been in the business a while and what I've noticed is that Nutanix support is one of the best out there. You log a low priority ticket and it gets picked up in 15 minutes and somebody is calling you to fix it. This is unheard of in the business."*

- Kawa Farid, Director, Infrastructure & Operations, Hyundai Australia

*"There's no ping-pong with Nutanix support; just expected assistance and answers. We view their support team as an extension of our own internal system engineers, ready to leap into action at any moment; covering the whole stack from networking to application to any hypervisor. Truly added value."*

- Alexandre Delen, Managing Director, Delen Private Bank

Read about @nutanix NPS score several times and lived and breathed it over the last 24 hours. Continuous support around the sun without a hiccup. No explaining what's wrong over and over just great support which has been a joy! @dheeraj thank you!

- @ryanjkennedy

Had a couple of cases open with @Nutanix\_Support this week. The SRE always deliver! I often get asked what I like most about @nutanix. Answer is always "support".

- @defryn
