

Virtual Desktop Modernization

EUC Nutanix Files for User Workspace Deployment

BENEFITS

- Speed deployment of the desktop and application virtualization solution with implementation by our Xpert consultants
- Mitigate risk and accelerate time to value by leveraging our experienced consultants
- Take advantage of comprehensive project documentation and a robust knowledge transfer session

OVERVIEW

The End User Computing (EUC) Nutanix Files for User Workspace Deployment focuses on collaborating with customers to deploy Nutanix Files, to optimally support storage of user profiles and data within an EUC environment.

A certified Nutanix consultant reviews and executes an existing migration plan to ensure that solution requirements are properly identified. The consultant also ensures adherence to Nutanix- and industry-recommended best practices while minimizing cost and complexity.

SERVICE SCOPE

Deploy, configure and validate the Nutanix Files infrastructure to support a single physical site

This fixed-outcome service supports deployment of Nutanix Files at a single physical location. Customers deploying multiple sites may purchase additional instances of this service for any additional sites.

Files for User Workspace Deployment Service:

For customers using Nutanix Files to support an EUC environment

Deployment includes:

- Deploy Nutanix Files to support a single physical site according to an existing design
 - Integrate with Active Directory
 - Configure file servers and shares to support:
 - User profiles
 - User data
 - User and application layers

- Configure Nutanix Files for local data protection
- Configure Nutanix Files for data protection replication to an existing remote Nutanix cluster (optional)
- Configure Nutanix Files analytics (optional)
- Configure PeerSync for data synchronization to an existing remote Nutanix Files instance (optional, requires PeerSync license)
- Test and validate the Files deployment

DELIVERABLES

- Project schedule
- Project status reports
- Deployment of Nutanix Files infrastructure
- Functional validation of the infrastructure
- As-built documents
- Project close out

TASK

	Files Deployment
Nutanix Files for user workspace deployment	Typically 1-2 days
