 Nutanix Files, a software-defined, scale-out file storage solution that
 provides a repository for unstructured data, such as home directories
 and departmental shares.
- Nutanix Volumes You will learn how Nutanix Volumes provides file storage for your physical workloads, with the same simplicity as virtualized workloads, consolidating infrastructure into a single unified platform.
- Nutanix Objects Nutanix Objects allows you to build a simple, secure, and scale-out stack. We show you how easy it is to spin up the Nutanix Objects service in a few simple steps.
