Infrastructure Modernization
FastTrack for Nutanix Move Application Migration

BENEFITS

- Speed initial adoption and enablement by implementing Nutanix Move in a simple configuration

- Mitigate risk and accelerate time to value by leveraging our experienced consultants

- Gain understanding through knowledge transfer for the most common configuration and migration topics

OVERVIEW

The FastTrack for Nutanix Move Application Migration service focuses on collaborating with customers to enable Nutanix Move as a virtual machine (VM) migration solution in a basic configuration to accelerate hyper-converged infrastructure (HCI) deployment and customer adoption. Nutanix Move Application Migration is a component of the Nutanix Cloud Platform.

Describe Architecture → Deploy Move → Configure source & destination → Demonstrate functionality

A certified Nutanix consultant deploys and configures Nutanix Move and a single VM source and destination, minimizing the time to begin migrating VMs.

SERVICE SCOPE

Deploy, configure and validate Nutanix Move to support a specified VM source.

FastTrack for Nutanix Move Application Management service:
For customers who want a rapidly deployed migration solution for an existing VM source

Service includes:
- Provide product overview and architectural enablement
  - o Review integration among AOS and hypervisors
  - o Discuss Nutanix Move feature set and capabilities
  - o Deploy a single Nutanix Move appliance
  - o Configure Nutanix Move to connect to a single existing supported destination cluster (AHV or ESXi)
  - o Configure Nutanix Move to connect to a single existing supported VM source environment (ESXi, Hyper-V, public cloud)
  - o Demonstrate migration of up to 5 non-production VMs
    - **Note:** In-guest VM reconfiguration is not included in this service.
- Conduct knowledge transfer session on as-built system

NUTANIX
